

EU Declaration of Conformity in accordance with Regulation (EU) 2025/40 (PPWR)

Applicable from 12 August 2026 / V1.1

We, **Teufelberger Gesellschaft m.b.H.**, having our registered office at Vogelweiderstraße 50, 4600 Wels, Austria, hereby declare that this declaration is limited to **PP strapping under the brand of “TEWE®” and PET strapping under the brand of “TYCOON®”**.

The strapping covered by this declaration are transport and securing packaging within the meaning of Regulation (EU) 2025/40 (PPWR) and are used exclusively for the bundling, stabilization, and load securing of goods during transport, storage, and handling. They are not part of the sales packaging of the product.

The strapping are typically used in industrial and commercial applications and are removed after use. They are supplied in the form of coils, which serve solely for the provision, handling, and processing of the product.

The following mandatory applicable Articles of Regulation (EU) 2025/40 (PPWR) are fulfilled:

- **Article 5 – Substances in Packaging**
The packaging does not contain any prohibited or restricted substances and complies with the applicable requirements regarding the minimization of substances of concern.
The sum of the concentrations of lead (Pb), cadmium (Cd), mercury (Hg), and hexavalent chromium (Cr(VI)) does not exceed 100 mg/kg.
Per- and polyfluoroalkyl substances (PFAS) are not intentionally added. These are not food contact packaging materials.
- **Article 6 – Recyclable packaging**
The packaging is designed to be technically recyclable and consists of materials that can be collected, sorted, and recycled without negatively affecting the recycling process or the quality of the recyclates.
- **Article 7 – Minimum recycled content in plastic packaging**
The recycled content used is correctly determined and documented.
The material composition is transparent and traceable and is specified per article number in the respective material data sheet.
- **Article 8 – Biobased feedstock in plastic packaging**
The packaging does not consist of bio-based raw materials; therefore, the corresponding requirements are not applicable.
- **Article 9 – Compostable packaging**
The packaging is not classified as compostable; therefore, the corresponding requirements are not applicable.
- **Article 10 – Packaging minimisation**
The packaging is designed to minimize weight and volume to the technically necessary minimum, while ensuring functionality, safety, and performance requirements..

- **Article 11 – Reusable packaging**

Strapping bands are not classified as reusable packaging. We refer to the Re-use quotas in Article 29.

- **Article 12 – Labelling of packaging**

The information provided on the packaging is accurate, consistent, and not misleading and complies with the information requirements applicable at the time of application.

Date of declaration: 21. April 2026

Place of issue: Wels, Austria

A blue ink stamp and handwritten signature. The stamp reads 'TEUFELBERGER Ges.m.b.H.', 'Vogelweiderstraße 50', and 'A-4600 Wels'. A blue ink signature is written over the stamp.
